

# Maintenance

Leveraging international expertise in facilities management, Sodexo can help you control costs and improve service quality.

## Our Client's Challenges

- Ensure safety for guests and employees
- Handle lack of a multi-skilled maintenance staff
- Provide preventive maintenance programs
- Increase service levels, leading to greater guest satisfaction

## Our Offer

Manage all aspects of preventive and curative maintenance including:

- Air conditioning & refrigeration, management and installation of electrical appliances, plumbing and mechanical work, painting, locksmith and carpentry services
- Communications: Telephone & network systems
- Plant maintenance and repairs: HVAC systems

Also, we have partnered with Tririga to develop a comprehensive, web-based maintenance management system tailored to the specific needs of Sodexo and our clients.

## A dedicated Sodexo Facilities Management division

With dedicated expertise in Facility Management, every day Sodexo offers clients its skills in the areas of:

- Building management
- Multi-technical maintenance
- Global services management

Sodexo offers its clients a way to subcontract operational management of services associated with building operations. By entrusting its support services to Sodexo, the client can focus on its core business while:

- Cutting costs
- Gaining flexibility and competitive advantage
- Improving service quality
